Seventy years of Swiss posters

The Kessler Archive’s index, now online: search by designer, year or printer.

The archive staff

Every poster in the archive has one record: designer, printer, year, size and the scan. The index is free; the originals can be seen by appointment in the reading room.

Designers with the most posters

Designer	Posters	Years
Josef Müller-Brockmann	1,180	1951 to 1985
Armin Hofmann	940	1948 to 1984
Emil Ruder	610	1950 to 1970

How to cite a record

Give the archive number, the designer and the year. Scans may be reproduced for study; for publication, write to the archive first.

Form follows function.
